About Us

With the principle of "***Health Starts with the Mouth,"*** Misip has secured a strong position in the industry through years of continuous R&D efforts and a quality-focused production approach. Are production facilities is very close to main port of İstanbul. We design products with functional structures and hygienic features to support daily oral care. Our factory is located in Turkey.

Misip is ***Turkey's first domestic brand for Dental Floss Picks, interdental floss, interdental brushes, bamboo toothbrushes, and tongue cleaners.*** Taking responsibility as a leader in this field, we continue to improve our products and make new innovations.

Our company designs with a focus on quality, hygiene, and ergonomic design. We continuously evaluate and test the user experience to refine our products. We are following sector innovations and integrating them into our product development processes.

Our Mission is to provide high-quality standards in oral care, offering reliable and accessible products.

Our Vision is to be a pioneer brand in the field of oral health by developing user-friendly and effective products.

As the Misip team, we listen to user feedback in every product we develop and aim to create healthier products for both health and the environment by using sustainable materials. ***Our goal is to make daily oral care more practical, effective, and hygienic, while also making it budget-friendly for everyone.***
